Trans. of Optika i Spektroskopiya (USSR) 1956, v. 1, no. 2, p. 113-124.

DESCRIPTORS: *Light, Motion, *Velocity, Solar radiation, *Relativity theory, *Optics.

The article deals with the direct experimental verification of the relativistic thesis concerning the independence of the velocity of light and the velocity of the source of radiation relative to the observer. The experimental setup is described and the results are given of a comparison of the times of travel over a
